STRATEGIC MANAGEMENT BUSINESS VENTURE (SMBV)

HAJI AHMAD FAKHRYAFENDI MOHD BAKHRY
Chief Executive Officer (CEO), Strategic Management Business Venture (SMBV) & Founder of SMB Nexus PMO

Haji Ahmad Fakhryafendi bin Mohd Bakhry is a seasoned professional with over 23 years of experience spanning architecture, construction, operations and maintenance, water distribution, water treatment plant operations, and palm oil plantation management. Since beginning his career in 2003, he has developed a multidisciplinary professional background encompassing technical project execution, infrastructure operations, business development, and senior-level management.

His career journey began in the architectural and construction industry, where he served as an Architectural Clerk of Works at Alizar Architect before expanding his professional experience internationally through three years of construction-related work in Saudi Arabia with Wastewater Engineering Sdn Bhd (WWE). He subsequently progressed into the water industry, contributing to operations and maintenance activities associated with water distribution networks serving Selangor, Kuala Lumpur, and Putrajaya (Syarikat Bekalan Air Selangor (SYABAS) & Air Selangor Sdn Bhd)

Throughout his career, he has gained exposure to technical operations, infrastructure management, organizational coordination, and strategic decision-making reflecting his ability to work across different industries and operational environments.

In year 2022 – 2024, he was appointed as Executive Director, Special Functions (Tugas-Tugas Khas), Danum Sinar Sdn Bhd a subsidiary of Puncak Niaga Holdings Berhad – reporting directly to YBhg. Tan Sri's Chairman of Puncak Niaga Holdings Berhad reflecting his progression into executive-level responsibilities in managing 12,000 hectares palm oil plantation operations and business in Bintulu, Sarawak.

Combining practical industry experience with formal education in bachelor's degree of architecture and master's in business administration (MBA), he brings a multidisciplinary perspective to organizational leadership, strategic planning, operational management, stakeholder engagement, and business development.

SMB Venture's – Connecting Expertise. Integrating Solutions. Creating Sustainable Value.

Our Business & Services

A Strategic Consortium. One Integrated Solution.

SMB Venture's champions a hyper-efficient Strategic Consortium Model, serving as a single-point strategic partner for premier property developers, regional water concessionaires, government agencies and public regulatory authorities across Malaysia.

Through an integrated network of professional consultants, technical specialists, contractors and strategic business partners, we deliver coordinated, cost-effective and value-driven solutions across infrastructure development, engineering, construction, waterworks, security and essential support services.

Our approach is built on strategic collaboration, operational efficiency, technical excellence and reliable service delivery—enabling clients to streamline procurement, optimise resources and execute projects with greater confidence.

Our Consortium Core Business & Service Divisions

1. Civil & Structural Engineering Consultancy

Providing multidisciplinary engineering consultancy, technical advisory and value engineering solutions.

2. Construction, Renovation and Industrial Supply

Delivering integrated construction and project support solutions for commercial, residential, industrial and infrastructure developments.

3. Waterworks and Plumbing Works

Providing waterworks and plumbing contracting services through our G3 contractor capabilities.

4. Integrated Security and Protective Services

Delivering comprehensive security solutions to safeguard commercial premises, business operations, infrastructure assets, personnel and public-facing environments.

5. Facilities Management and Essential Support Services

Commercial and residential cleaning. Catering, Electrical wiring and installation. Air-conditioning installation, servicing and maintenance. Grass cutting, landscaping and grounds maintenance. Painting and refurbishment work. Lorry transportation and logistics support. Awning, grille and related metalwork installation. General building repairs and property maintenance.

6. Takaful and Insurance Solutions

General insurance solutions. Business and commercial protection. Personal protection and family takaful. Risk protection solutions tailored to client requirements.

7. Gold Investment and Precious Metals (Authorise Dealer)

Physical gold investment and ownership. Gold purchasing and selling facilitation.

OUR STRATEGIC PARTNERS

A Connected Network of Expertise. One Coordinated Delivery Platform.

SMB Venture operates through a strategic consortium of specialist companies, technical consultants and service providers, bringing together complementary capabilities to support infrastructure development, construction, waterworks, asset protection and facilities operations.

Our partnership model is designed to provide clients with coordinated access to relevant expertise throughout the project lifecycle — from technical planning and engineering consultancy to construction execution, operational support and ongoing maintenance.

By connecting specialist capabilities through a single strategic platform, SMB Venture aims to simplify stakeholder coordination, improve resource utilisation, strengthen project delivery and create sustainable commercial value.

Our Partners: -

1. **JPT Engineering Consulting Sdn. Bhd.**
2. **Prisma Senada Sdn. Bhd.**
3. **Daun Rimbun Sdn. Bhd.**
4. **MUS Security Sdn. Bhd.**
5. **MyDr.House**
6. **LRC Consultancy**

JPT Engineering Consulting Sdn. Bhd.
Civil & Structural Engineering Consultancy | Infrastructure Planning | Technical Advisory

JPT Engineering Consulting provides multidisciplinary engineering consultancy and technical advisory capabilities across civil, structural and infrastructure-related developments.

Core areas of expertise

- Township planning and infrastructure development.
- Building structures and civil engineering works.
- Drainage, irrigation and stormwater management.
- Water resources, water supply and wastewater engineering.
- Sewerage, highway and transportation infrastructure.
- Geotechnical engineering.
- Multidisciplinary project management and technical advisory.
- Value engineering, design review and design audit.

Strategic contribution to SMB Venture: Supports the technical planning, engineering assessment and value-engineering requirements of infrastructure and development projects.

Prisma Senada Sdn. Bhd.
Construction | Renovation | Manpower & Industrial Supply

Prisma Senada complements the consortium with construction-related resources and project support capabilities for commercial, residential, industrial and infrastructure environments.

Core areas of expertise

- Building construction, renovation and refurbishment.
- Skilled and general manpower supply.
- Office equipment and business facility supplies.
- Heavy machinery and construction equipment supply.

Strategic contribution to SMB Venture: Provides access to construction resources, workforce support and equipment supply to complement project implementation and site requirements.

Daun Rimbun Sdn. Bhd.

G3 Contractor's for Waterworks | Plumbing | Pipeline Infrastructure

Daun Rimbun supports the consortium's water infrastructure and plumbing-related service capabilities, covering pipeline works, installation, maintenance and supporting project coordination.

Core areas of expertise

- Water distribution infrastructure and pipeline works.
- Plumbing installation and maintenance.
- Water supply network construction and repairs.
- Technical support and coordination for water infrastructure projects.

Strategic contribution to SMB Venture: Strengthens the consortium's capacity to support water supply, pipeline and plumbing projects, subject to applicable registrations, approvals and contractual requirements. Registration notes: CIDB and SPAN credentials should be attributed to the correct registered entity and stated with the relevant registration details.

MUS Security Sdn. Bhd.
Security Personnel | Site Protection | Security Systems

MUS Security contributes security and protective service capabilities to support the safety of business premises, project sites, personnel and physical assets.

Core areas of expertise

- Security personnel and security guard services.
- Premises, site and asset protection.
- Security systems, surveillance and access control.
- Security equipment supply and related support.
- Private Investigator & Escort

Strategic contribution to SMB Venture: Supports site security planning, protective operations and asset safeguarding through appropriately appointed and qualified personnel.

MrDr.House
Facilities Support | Property Maintenance | Essential Services

MyDr.House complements the consortium through a range of facilities, property maintenance and essential support services for commercial and residential environments.

Core areas of expertise

- Commercial and residential cleaning.
- Catering and food services.
- Electrical wiring and air-conditioning installation, servicing and maintenance.
- Grass cutting, landscaping and grounds maintenance.
- Painting, refurbishment and general building repairs.
- Lorry transportation and logistics support.

Strategic contribution to SMB Venture: Enables coordinated access to facilities support and property maintenance services, helping clients address multiple operational requirements through an integrated service arrangement.

LRC Consultancy
Takaful & Insurance Advisory |
Business Risk Protection

LRC Consultancy is identified within the SMB Venture network as a partner for insurance, takaful and business risk-protection solutions.

Core areas of expertise

- General insurance solutions.
- Business and commercial protection.
- Personal protection and family takaful.
- Risk-protection solutions tailored to client requirements.

Strategic contribution to SMB Venture: Supports access to relevant insurance and takaful solutions to help clients assess and manage appropriate protection requirements.

THE VALUE OF OUR CONSORTIUM

Through a coordinated network of specialist partners, SMB Venture aims to deliver:

- Integrated Expertise — Access to complementary professional, technical and operational capabilities.
- Coordinated Project Support — A structured approach to connecting client requirements with the appropriate specialist providers.
- Resource Optimisation — Better alignment of technical resources, manpower, equipment and service capabilities.
- Flexible Engagement — Solutions structured around project scope, client requirements and agreed contractual responsibilities.
- Sustainable Value Creation — Long-term collaboration focused on service quality, operational continuity and enduring business relationships.

Partnerships are activated according to project requirements, partner availability, applicable registrations and agreed contractual arrangements. Professional appointments, statutory approvals, licences and project delivery responsibilities remain with the appropriately qualified and appointed entities.

LET'S BUILD VALUE TOGETHER.

One Strategic Partner. Multiple Integrated Capabilities.

At SMB Venture, we believe successful projects are built on the right expertise, strong partnerships and disciplined coordination.

Our strategic consortium connects complementary technical, construction, infrastructure and operational capabilities to help clients address complex requirements through a coordinated and commercially focused approach.

Whether you are planning a development, implementing an infrastructure project, strengthening operational support or exploring a strategic business collaboration, SMB Venture welcomes the opportunity to understand your objectives and develop a suitable engagement approach.

WHY SMB VENTURE?

- **Integrated Capabilities**

  Access to a network of specialist service providers across complementary disciplines.

- **Strategic Coordination**

  A coordinated approach to aligning client requirements, technical expertise and project resources.

- **Long-Term Collaboration**

  A commitment to building trusted business relationships and creating sustainable value.

LET'S DISCUSS YOUR NEXT OPPORTUNITY.
