# SMB VENTURE

Corporate Capability Profile & Strategic Consortium Framework

## 1. Executive Summary

**SMB Venture** is an agile, multi-disciplinary **Project Management Office (PMO)** and **Master Consortium Lead** operating at the forefront of modern infrastructure development, engineering consultancy, and corporate asset protection in Malaysia.

Moving away from legacy, overhead-heavy construction operational frameworks, SMB Venture deploys a highly efficient **Strategic Consortium Model**. We serve as the single, fully accountable point of contact for property developers, corporate entities, and public authorities. We seamlessly mobilize, align, and manage a dedicated, pre-vetted corporate ecosystem that includes Tier-1 civil engineering consultants, Grade-7 infrastructure builders, industrial waterworks specialists, and licensed security corporations.

By centralizing design engineering precision, direct-to-factory material supply chains, and strict statutory compliance under a unified project management lens, SMB Venture guarantees institutional-grade execution capabilities with the hyper-responsive focus of a dedicated project partner.

## 2. Strategic Intent

**Vision:** To be Malaysia's premier multi-disciplinary infrastructure solutions orchestrator, redefining project management efficiency by bridging top-tier technical expertise with seamless, compliant corporate execution.

**Mission:**

- **For Developers & Authorities:** To deliver institutional-grade engineering, construction, and security solutions through a single, accountable PMO interface, eliminating fragmented vendor friction and accelerating statutory handovers.
- **For Our Consortium Partners:** To expand market reach, capture premier commercial opportunities, and optimize asset utilization through structured, high-leverage project alliances.

**Core Values:** Integrity & Transparency | Agility & Precision | Uncompromising Safety & Compliance.

## 3. Corporate Identity & Administrative Data

| | |
|---|---|
| Entity Registered Name | SMB Venture |
| Business Structure | Enterprise (Operating as a Master Consortium Lead) |
| Registration Number | [Insert SSM MyCoID Number Here] |
| Registered & Office Address | [Insert Main Business Address Here] |
| Primary Banking Partner | [Insert Corporate Bank Name and Account Details] |
| Core Operational Role | Turnkey PMO / Consortium Administration / Client Liaison |

## 4. The SMB Venture Strategic Ecosystem

To ensure uncompromised technical delivery and full scale capability for large-scale developments, SMB Venture anchors its operations on four core corporate pillars:

| Core Vertical | Consortium Executive Partner | Operational Value to Client |
|---|---|---|
| **Civil & Structural Engineering** | **JPT Consulting Engineering Sdn Bhd** | Front-end engineering design (FEED), structural analysis, building blueprint endorsement, and statutory authority plan submissions. |
| **Infrastructure & Construction** | **Daun Rimbun Sdn Bhd** | Heavy machinery mobilization, main contractor execution, civil engineering works, pipe laying, and specialized infrastructure building. |
| **Material Supply Chain** | **Newflo Corporation Sdn Bhd** | Direct factory procurement and distribution of certified waterworks fittings, industrial valves, and high-pressure fire protection components. |
| **Security Management** | **Prisma Senada Sdn Bhd** | Deployment of licensed corporate static guards, risk assessments, integrated perimeter surveillance networks, and total asset protection. |

## 5. Key Regulatory Frameworks & Compliance

Through our structural alliance network, the SMB Venture consortium provides full compliance clearance under the following national governing bodies:

- **SSM (Companies Commission of Malaysia):** Full corporate transparency and registration compliance.
- **CIDB (Construction Industry Development Board):** Grade-7 licensing capabilities via our building and civil engineering partners.
- **SPAN (Suruhanjaya Perkhidmatan Air Negara):** Specialized internal and external waterworks/plumbing handling licenses.
- **Jabatan Bomba dan Penyelamat Malaysia:** Fire protection systems installation, testing, and material certification clearance.
